THE SINGAPORE CYCLE & MOTOR TRADERS' ASSOCIATION

HISTORY

The Association was established in 1932. The founder members were mainly consisted of businessmen in the bicycle trade. As Singapore became more developed and prosperous, however, motor vehicles and other more advanced forms of transportation replaced bicycles and trishaws as the main modes of transportation. As a result, members of the Association are now mainly dealers of motor vehicle parts and accessories.

OBJECTIVES

The Association aims to promote unity, to foster friendship among fellow members, to enhance the business prospects for its members and to carry out welfare work in the community.

MEMBERSHIP

Dealers engaged in the trading of bicycles, motorcycles, motor spareparts and accessories, and other merchandise relating to bicycles, motorcycles, and motor vehicles, who are willing to abide by the rules and regulations of the Association, are eligible for membership of the Association.The Association currently represents about 80% of such dealers in Singapore.

Supplier representatives and commission agents with business relationship with members of the Association are also invited to become Honorary Patrons or Patrons of the Association.

INFORMATION SERVICE

The Association is made known globally through a network of international trade and commercial institutes. Relevant overseas trade enquiries are channeled through these bodies to members. In addition to trade enquiries, statistics such as those on motor vehicles registrations, the import and export of motor vehicles, parts and accessories, information on the latest technological developments within the motor industry and other relevant news are compiled by the Association for members' use and reference.The Association also often acts as a source of reference for visiting individuals or trade missions who are looking for local contacts.

WELFARE & EDUCATION

The Association has set up its bursary fund for its students whose parents are employees of a member firm. The annual bursary awards amount to $200 for a primary student, $300 for a secondary student and $800 for a college or university student.

Seminars and courses conducted by the Trade Development Board and various chambers of commerce and industry are organised regularly for members to help them in their business.

SOCIAL & SPORTS

The Association occasionally organises get-togethers for members, their employees and families to foster closer relationship among them. In addition, the Association organises various sports and recreation activities each year. For the past few years, tournaments held include chess, carom, dart, bowling, squash, badminton, table tennis, golf and karaoke. Supported by generous prize sponsorship from patrons, these have been well received by members and their employees.

REPRESENTATION

The Association also often represents members on their view on major issues affecting them.
